

DISTINCTLY *DIFFERENT...* TO MAKE A BOTTOM-LINE *DIFFERENCE*

Swagelok world-renowned, premium-quality, leak-tight **Tube Fittings** have delivered safe, unparalleled performance and efficiency in even the most challenging Oil & Gas, Chemical, Steel, Power, Research & Development, and General Industrial applications since 1947.

Here's how:

PROPRIETARY DESIGN

We incorporate a grip-type mechanism that creates a unique hinging-and-colleting action that results in more direct tube contact support, an ultra-strong gas seal, and secure isolation of stress risers at the tube grip for exceptional bending, deflection, and vibration resistance.

SUPERIOR MATERIALS

We use a special "Swagelok" 316 stainless steel that exceeds ASTM minimum requirements for nickel and chromium for optimum corrosion resistance and ductility.

PROCESS OWNERSHIP

All welding, forging, electro-polishing, machining, assembly, testing... all manufacturing activities are done only by us – in only our facilities. Plus, our raw materials traceability is so critical and integral to our total quality system, we can track what lot of material makes up a part and which components are in an assembly!

OUR PROMISE

Swagelok has a proven passion for perfection. That's why we routinely and rigorously test thousands of random samples each year – subjecting them to extreme burn, rotary flex, and shock impact conditions – to absolutely ensure that you always receive the safest, most-reliable, leak-tight tube fittings in the fluid-system industry.

Our specific tests include Hydrostatic Pressure, Tensile Pull, Rotary Flexure, Seismic Intensity, Chloride Stress Corrosion Cracking, Nitrogen Gas Seal, and Nitrogen Gas.

For more details on all Swagelok premium-quality Components and our value-added Strategic Support Services such as Safety Training, Custom Design & Build Capabilities, Energy and Hose Evaluations, and Tool Rentals, contact:

Put our team alongside yours

WE DELIVER DIFFERENCE-MAKING SOLUTIONS:

Products | Strategic Support Services | Application Know-How

The Brand. The Inventory. The Expertise.

WE'RE YOUR SWAGELOK FLUID-SYSTEM SOLUTIONS PROVIDER

**Industry-Best
Componentry**

**Masterful Custom
Fabrication**

**Expert Safety
Training**

**Extensive
Energy Evaluations**

**Unparalleled
Application Knowledge**

**Comprehensive
Hose Advisories**

**Proven Inventory
Management Support**

**Genuine Swagelok
Tool Rentals**

WE CAN HELP YOU SAVE TIME, MONEY, AND WORRY:
