

Something  
**EXTRA**

**Swagelok Tube Support Systems:** Your ideal and cost-effective means to limit the damaging effects of line impulse and vibration

- Bolted, heavy-duty plastic construction
- Superior shock absorption
- Highly resistant to ultraviolet light and most chemicals and corrosives
- Drastically reduce overall component stress
- Enhance total system reliability
- Simplifies installation and maintenance
- Temperature rating: -22°F to 194°F

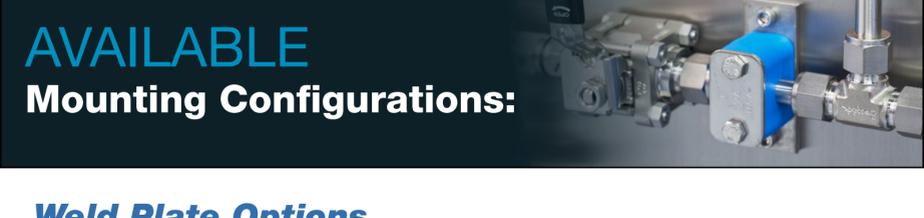

**Single Support**

**Twin Support**

**Stacked Support**  
(up to 3)

**AVAILABLE Mounting Configurations:**

**Weld Plate Options**

- Standard or elongated lengths
- Welded, not press fit, into weld plate

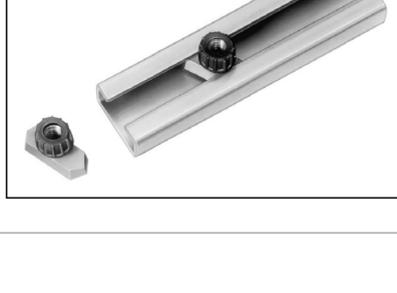

**Single-Support Weld Plate**

**Twin-Support Weld Plate**

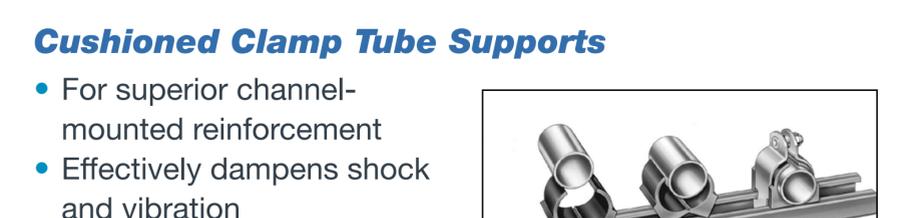

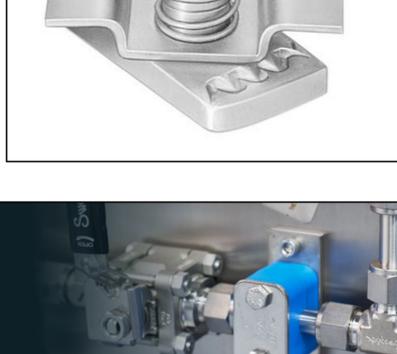

**Mounting Rail and Rail Nuts**

- Add or remove anywhere along rail span
- Neoprene cap holds nuts and support in place
- Two rail nuts required for single-support kits; just one for twin-support kits

**Strut Nuts**

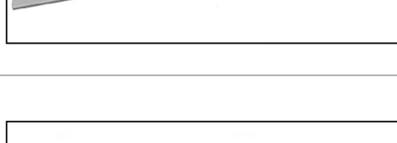

- Used on 1-5/8" strut rail mounts
- Add or remove along rail span
- Two strut nuts required for single-support kits; just one for twin-support kits

**IN ADDITION, Try Our:**

**Cushioned Clamp Tube Supports**

- For superior channel-mounted reinforcement
- Effectively dampens shock and vibration
- Highly resistant to galvanic corrosion

**P Clamp Supports**

- Ideal for tube or hose runs
- Wide array of sizes
- Easy to install to a wall or equipment frame – with just a single screw or bolt

**Tube Support Strips**

- Effectively organize multiple tubing or hose runs
- Push-in installation
- Easy to attach to a wall or equipment frame – using just two screws or bolts
