Ultra-Reliable.  
Always Available.  
Selection Expertise.

**Fittings**

For unparalleled leak-tight connections between fluid-system componentry since 1947

**Valves**

Reliably control flow across a broad range of working pressures, temperatures, and operating conditions

**Regulators**

Consistently and accurately maintain pressure levels over extended operating lifespans

**Hoses**

Available in a vast array of materials, pressure ratings, and flexibility degrees

**Assemblies**

Designed, built, and tested by Swagelok-certified engineers and technicians

**The Inventory**

We have just what you need – right when and where you need it.

Always quickly and accurately shipped from our state-of-the-art carousel picking system.

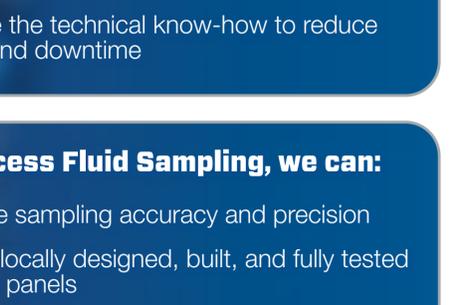

**The Know-How**

Our highly skilled and knowledgeable external and internal sales associates are always ready and willing to help you choose the best Swagelok tool for a particular application, no matter what the industry.

**Locally, Swagelok Pittsburgh | Tri-State Area**

operates with an unwavering commitment to quality – our people, our products, our services – that enables us to help keep you safe, productive, efficient...no matter how challenging your Oil-and-Gas, Chemical, Power, Steel, General Industrial, Clean Energy, or Research-and-Development fluid-system applications.

**In Industrial Plant Operations, we can:**

- Identify dangerous and costly leakage via our fluid-system and industrial hose evaluations
- Solve known system issues or provide new, improved systems
- Provide the technical know-how to reduce costs and downtime

**In Process Fluid Sampling, we can:**

- Improve sampling accuracy and precision
- Deliver locally designed, built, and fully tested sample panels
- Upgrade your sampling safety and efficiency via advanced training

**In Research & Development, we can:**

- Share recommendations that will maximize gas system output
- Deliver safe, reliable, tested, locally built assemblies for utmost performance
- Suggest the right components to ensure compliant, compatible systems

**Put our team alongside yours**
