

Training Day(s)

Learn how to assemble and maintain Fluid Systems **SAFELY** and **PROPERLY**

Enroll your technicians in our all-day, globally renowned, affordable **Swagelok Tube Fitting Installation & Tube Bending Essentials Course**

to dramatically reduce line leakage and lost revenue, potential harm to workers and/or other valuable site assets, and overall system inefficiencies and ineffectiveness.

WHAT OUR GRADUATES ARE SAYING:

"The instructor did a terrific job of adjusting the class content to fit the needs of the room"

"I came loaded with questions around real-world applications – and the instructor answered every single one...thoroughly"

"Learned SO many ways to rethink – and simplify – my maintenance work"

"No matter if you've been bending tubing for years or are new at it, you will leave this course knowing so many new ways to think about your work – and methods to perform it at a much higher level"

"Hands-down one of the best instructional events in my career"

"So refreshing that this course was geared primarily toward practical application and not just theory"

"The hands-on portions were so helpful...getting to work with the actual tubing and fittings"

"What would I change about the class...NOT A THING"

One day – at your facility/project location or at our 12-seat Pittsburgh Training Center – could mean a much healthier Bottom Line as your technicians **practice, practice, practice** to graduate with not only a genuine Swagelok Certificate of Completion...but with the confidence and knowledge to perform their maintenance jobs safely and optimally, no matter how challenging the application or environment.

We supply ALL class materials: fittings, tubing, tube benders, tube cutters; students simply need to show up ready to learn the latest and most advanced Best Practices from the world's leading fluid-system experts.

Our Spring and Summer Mobile schedules are filling fast...email, call, or text today to reserve your April, May, or June spot:
