**Pipeline and Hazardous
Materials Safety Administration**

September 09, 2022

Expiration Date: 09-09-2027

Mr. Matthew Chan
Compliance Engineer
Swagelok Company
26651 Curtiss Wright Parkway
Willoughby Hill, OH 44092-2832 United States

Dear Mr. Chan:

In response to your request dated 09-09-2022, the Pipeline and Hazardous Materials Safety Administration (PHMSA) is re-issuing registration number **M5366** which is hereby assigned to Swagelok Company located at 26651 Curtiss Wright Parkway, Willoughby Hill, OH. This symbol may be used in place of the packaging manufacturer or certifying company's name and address, as authorized under provisions of Part 178 of the Hazardous Materials Regulations (49 CFR Parts 171-180).

In accordance with 49 CFR § 178.503, this symbol may be used to mark packagings manufactured and / or certified on behalf of the company identified in this letter and operating at the address referenced in this letter, or other authorized locations on file with PHMSA.

In addition to the marking of packagings under the provision of Section 178.503 of 49 CFR, the following conditions must be met:

1. For Packaging manufactured/certified at other locations than noted above, it is the responsibility of the approval holder to submit and maintain an up-to-date listing, which includes the point of contact and address of each location marked with an "M-Number" under the provisions of this approval. This listing must also be made available to PHMSA, upon request.
2. The approval holder must provide certification records to PHMSA about any packaging manufactured under this symbol including where that packaging was certified. The HMR requires packaging manufacturers to identify the need for design qualification testing for each new or different packaging, including when a packaging has varied in structural design, size, material of construction, and manner of construction. This includes variations that occur between separate facilities using the same symbol for certification. This approval provides no relief from those requirements.

3. This registration number authorizes the approval holder to mark packaging that is certified at multiple locations under one M Number registration number. The approval holder is responsible for maintaining records for each packaging manufactured under the M Number listed above, which includes the specific location where the packaging was certified.
4. You must notify this office of any changes in facility name, address, ownership, or management, within twenty days of the change, for any facility authorized under the conditions of this approval.
5. This registration is renewable every five (5) years. If you wish to renew this registration, please ensure that your application for renewal is received by PHMSA at least 60 days prior to the expiration date posted above, in accordance with CFR 107.705(c).
6. Renewal applications or enquiries should be sent to approvals@dot.gov or in accordance with 49 CFR Section 107.705.
7. This approval, as revised, supersedes all previous versions.

for William Schoonover
Associate Administrator for Hazardous Materials Safety
